EDUCATION

DEVOPS DIPLOMA

singalovski + develeap

Ort singalovski - software studies: java ,c
sql, python, networking.

Odeveleap - k8s: aws ,git
terraform, networking, linux, gitops.

During my full DevOps diploma program,
I developed essential skills in problem-
solving, learned to adapt to new
technologies, collaborated effectively in a
team, and gained experience with
integrating various DevOps tools.
portfolio: Git repo: [here](#)

PEN TESTING COURSE

Full pen testing course with kali linux

Side Projects

Persona-generator: web app that
generate random persona
<https://persona-generator.today>

Technologies

Docker	k8s	GKE
Linux	helm	EFK
Jenkins	prometheus	gitops
Git	grafana	argocd
AWS	elastic	SQL
CI/CD	kibana	terraform
nginx	GCP	ansible
java	Bash	networking

hobbies

hanging out with friends,
traveling, reading a good book, writing.

Dvir Pashut

Devops Engineer

PROFILE

DevOps engineer with experience in Kubernetes. I recently completed a one-year DevOps bootcamp and excel at troubleshooting and providing solutions. I'm a committed team player with excellent collaboration skills and a passion for innovation.

I am passionate about continuous learning and staying up-to-date with new skills

EXPERIENCE

DEVOPS ENGINEER (OUTSOURCED), CHECKPOINT/DEVELEAP 2023 - 2024

develap - checkpoint(perimeter81)
06/2023 - today

After completing the DevOps bootcamp, I started working at Checkpoint with the pre-existing DevOps team.

- CI/CD: Created, managed, and improved the organization's CI/CD pipelines, including migrating the CI/CD platform from TeamCity to GitHub Actions. This involved creating workflows and actions.
- AWS: Worked with AWS services including ECS, ECR, Route 53, RDS, Lambda, S3, CloudWatch, API Gateway, CloudFront, and more.
- Terraform/Terragrunt: Created and managed Terraform modules for the organization.

In addition, contributed to architectural discussions and offered insights into best practices for reliable and scalable infrastructure design. as well as creating various tools and scripts to enhance the performance and time consumption of daily work.

SOLDIER IN THE IDF

Combat soldier: at the armored reconnaissance platoon,
APC (armored personnel carrier) driver.

Sergeant: later on transferred to the intelligence department at the same battalion and served as the platoon Sergeant, including; logistic manager, soldiers management. Giving classes to the battalion soldiers and more.
